Dear Ms. Sedlachek,

Our letter dated February 2, 2001, transmitted the tentative revised monitoring and reporting program (CI No. 8041) for your waste discharge.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on February 22, 2001, considered all factors in the case, reviewed and adopted the revised tentative monitoring and reporting program (copy attached).

The "Monitoring and Reporting Program" requires you to implement the monitoring program on the effective date of this Order. All monitoring reports should be sent to the Regional Board, ATTN: Data and Information Management Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "**Compliance File CI-8041 and NPDES No. CA0064262**" which will assure that the reports are directed to the appropriate file and staff. We will appreciate it if you would not combine other reports but would submit each type of report as a separate document.

If you have any questions, please contact Jay Huang at (213) 576-6711.

Sincerely,
