November 30, 2000

Mr. Don Davis Sanitation Superintendent City of San Buenaventura P.O. Box 99 Ventura, CA 93002

Dear Mr. Davis:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – SPINNAKER LIFT STATION CONSTRUCTION PROJECT, LOCATED AT 1400 ANGLER ROAD, VENTURA, CALIFORNIA (NPDES NO. CAG994001, CI-8208)

We have completed our review of the application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES).

Based on the information provided, the proposed discharge of groundwater meets the conditions to be regulated under Order No. 97-045; "General NPDES and Waste Discharge Requirements For Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties", adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES permit, consisting of Order No. 97-045 and Monitoring and Reporting Program No. CI-8208. The discharge limits in Part E and Attachment B of Order No. 97-045 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of this permit. All monitoring reports should be sent to this Regional Board, <u>ATTN: Information Technology Unit</u>.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8208 and NPDES No. CAG994001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

Data submitted with the application in regard to Total Petroleum Hydrocarbons and Phenolic compounds (chlorinated) did not meet minimum detection limits to indicate compliance with the limits established in the permit. Monitoring has been included for these constituents as well as for Methyl Tertiary Butyl Ether (MTBE), for which no data was submitted, until such compliance can be determined.

California Environmental Protection Agency

Mr. Don Davis

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. 97-045 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously. A copy of the Order will be furnished to anyone who requests it.

If you have any questions, please contact Tracy Patterson at (213) 576-6661.

Sincerely,

Dennis A. Dickerson Executive Officer
