SOUTHERN CALIFORNIA GAS COMPANY  
(MCBEAN PARKWAY BUS TRANSFER STATION)  
HYDROSTATIC TESTING

NPDES NO. CAG674001  
CI-8209

**FACILITY ADDRESS**

McBean Parkway and Valencia Blvd.  
Santa Clarita, CA 91355

**FACILITY MAILING ADDRESS**

555 W. Fifth Street  
Los Angeles, CA 90013

**PROJECT DESCRIPTION:**

The Southern California Gas Company will be relocating a gas pipeline located at McBean Parkway and Valencia Boulevard to accommodate the construction of a new bus transfer station in the City of Santa Clarita. The Gas Company proposes to discharge hydrostatic test water into a storm drain at Valencia Boulevard. Approximately 600 linear feet of 24-inch diameter steel pipeline will be tested.

Valencia Water District will supply the domestic hydrant water for hydrostatic testing. If the total residual chlorine in the wastewater is above the discharge limitation, sodium thiosulfate or sodium bisulfate will be added to dechlorinate the wastewater.

**VOLUME AND DESCRIPTION OF DISCHARGE:**

Up to 14,000 gallons of hydrostatic water will be discharged to the storm drain located at Valencia Boulevard (Latitude: 34° 24' 48.5", Longitude: 118° 33' 36.9"). Discharge to the storm drain flows into Santa Clara River.

**FREQUENCY OF DISCHARGE:**

The discharge will occur only once.

**REUSE OF WATER:**

There is no feasible reuse option for hydrostatic water at the site.
