WASTE DISCHARGE REQUIREMENTS  
FOR  
COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC WORKS  
(Hollyhills Unit 8A Project)**

**NPDES NO. CAG994001  
CI-8287**

**PROJECT LOCATION**

Rosewood Avenue  
West Hollywood, CA 90048

**FACILITY MAILING ADDRESS**

900 S. Vermont Avenue  
Alhambra, CA 9111803

**PROJECT DESCRIPTION**

County of Los Angeles Department of Public Works (LACDPW) proposes to construct a storm drain as a reinforced concrete box on Rosewood Avenue in the City of West Hollywood. During construction, dewatering is anticipated along Rosewood Avenue between San Vicente Boulevard and West Knoll Drive. LADWP proposes to store the groundwater in settling tanks and to analyze the groundwater prior to discharge into the storm drain.

**VOLUME AND DESCRIPTION OF DISCHARGE**

LADWP will discharge up to 0.504 million gallons per day (mgd) of groundwater during the construction project. The water will be discharged into a storm drain on San Vicente Boulevard (Latitude 34° 04' 49", Longitude 118° 22' 35") thence into Ballona Creek, a water of the United States. The project location map is shown in Attachment I.

**FREQUENCY OF DISCHARGE**

The discharge will be intermittent and will begin in September 2001. The construction project will be completed in February 2002.

**REUSE OF WATER**

There are no feasible reuse options for the discharge.
