

## Los Angeles Regional Water Quality Control Board

June 3, 2013

Mr. David Hill  
Water Resources and Planning Manager  
Central Basin Municipal Water District  
6252 Telegraph Road  
Commerce, CA 90040-2512

Dear Mr. Hill:

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—CENTRAL BASIN MUNICIPAL WATER DISTRICT, WHITTIER PUMP STATION II, 4128 SAN GABRIEL RIVER PARKWAY, WHITTIER, CALIFORNIA (NPDES NO. CAG994005, CI-8431)**

The subject discharge is regulated under Order No. R4-2003-0108, *Waste Discharge Requirements and General National Pollutant Discharge Elimination System for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

We have reviewed your February 8, 2013, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that you do not expect to discharge groundwater from the potable water supply well and the permit is no longer needed. On May 21, 2013, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2003-0108, General NPDES Permit No. CAG994005, CI-8431 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger, P.E.  
Executive Officer
