Newbury Park, CA 91320-1716

**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE
REQUIREMENTS – USA GASOLINE CORPORATION STATION #228, 11806 VALLEY VIEW
AVENUE, WHITTIER, CALIFORNIA (ORDER NO. R4-2002-0030, SERIES NO. 011, CI-8492,
FILE NO. I-03274)**

Dear Mr. Miller:

In our letter dated November 12, 2002, we informed you that the subject discharge is regulated under Order No. R4-2002-0030, (Series No. 011), which specifies your Waste Discharge Requirements (WDR).

In a letter dated January 15, 2003, you notified the Regional Board that you ceased the dual-phase (soil vapor and groundwater) vacuum extraction system with GAC filter vessels and on-site re-injection of treated water for this site and that you requested termination of the WDR.

The monitoring results were provided to the Regional Board in quarterly monitoring reports. Since you have completed the in-situ remediation and no longer need the WDR, the coverage under Board Order No. R4-2002-0030, (Series No. 011), for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Project Manager, Mr. Noman Chowdhury, at (213) 576-6704 or the Acting Section Chief of Groundwater Permitting and Landfills, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Samuel Unger, P.E.
Interim Executive Officer
