## California Regional Water Quality Control Board

**Los Angeles Region** 

Arnold Schwarzenegger

320 West Fourth Street, Suite 200, Los Angeles, California 90013 (213) 576-6600 Fax (213) 576-6640 http://www.swrcb.ca.gov/rwqcb4

Governor

October 14, 2004

Ms. Susan Damron Manager of Wastewater Quality Compliance City of Los Angeles Department of Water and Power 111 N. Hope Street, Room 1213 Los Angeles, CA 90012

**CERTIFIED MAIL** RETURN RECEIPT REQUESTED CLAIM NO. 7003 3110 0003 3258 3403

Dear Ms. Damron:

CONTINUATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS - CITY OF LOS ANGELES DEPARTMENT OF WATER AND POWER, HAYNES GENERATING STATION REPOWERING PROJECT, LONG BEACH, CALIFORNIA (NPDES NO. CAG674001, CI-8529)

We have completed our review of your Notice of Intent (NOI) and analytical results of representative groundwater samples submitted in order to continue enrollment under the General NPDES Permit. Discharge of hydrostatic testing water from the above-referenced facility is currently regulated under the National Pollutant Discharge Elimination System (NPDES) General Permit No. CAG674001 (Order No. 97-047) adopted by this Board on May 12, 1997.

Based on the Fact Sheet and other information provided, we have determined that the hydrostatic testing water discharge meets the conditions to be regulated under Order No. R4-2004-0109, Waste Discharge Requirements for Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. CAG674001), adopted by this Board on July 1, 2004.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2004-0109 and Monitoring and Reporting Program No. CI-8529. The discharge limitations in Section E Order No. R4-2004-0109 are applicable to your discharge. Discharge from the project drains to San Gabriel River Estuary (downstream from Willow Street) and the Orange County Flood Control Channel which flow to the Pacific Ocean; therefore, the discharge limitations in Attachment B are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. R4-2004-0109. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8529 and NPDES No. CAG674001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

California Environmental Protection Agency

(Haynes Generating Station Repowering Project)

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. R4-2004-0109 only to the applicant. For those on the mailing list, please refer to the Board Order previously sent to you. A copy of the Order will be furnished to anyone who requests it, or it can be obtained at our web site address: http://www.swrcb.ca.gov//~rwqcb4/html/permits/general permits.html.

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

Jonathan Bishop Executive Officer
