Dear Mr. Staab:

Our letter of February 1, 2012, transmitted a tentative order to terminate Waste Discharge Requirements (WDR), Order No. R4-2004-0110, for the injection of gaseous ozone/air mixture (ozone sparging) to remediate the petroleum hydrocarbon contaminated groundwater in the shallow aquifer at the 76 Station No. 6965 located at 3014 Studebaker Road, Long Beach, California.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public meeting held on April 5, 2012, reviewed the tentative order, considered all factors in the case, and adopted Order No. R4-2012-0075 (a copy is enclosed) relative to the termination of the WDR. No written comments were received related to the termination of the WDR.

ORDER NO. R4-2012-0075

**TERMINATION OF WASTE DISCHARGE REQUIREMENTS
FOR DISCHARGES TO LAND/GROUNDWATER
(ConocoPhillips Company, 76 Station No. 6965)**

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board) finds:

1. On July 1, 2004, this Regional Board adopted Waste Discharge Requirements (WDR) contained in Order No. R4-2004-0110 for ConocoPhillips Company (Discharger) for the injection of gaseous ozone/air mixture (ozone sparging) to remediate the petroleum hydrocarbons contaminated groundwater in the shallow aquifer at the 76 Station No. 6965 located at 3014 Studebaker Road, Long Beach, California.
2. On January 25, 2012, the Discharger notified Regional Board staff that based on preliminary evaluation of the remedial alternatives, multiple phase extraction or air sparge/soil vapor extraction would be more effective than ozone injection. Therefore, there is no plan to use ozone injection at the site.
3. The Discharger has no plans to inject ozone at the subject site. The Regional Board finds that Order No. R4-2004-0110, with waste discharge requirements, is no longer applicable and shall be terminated, except for enforcement purposes.
4. The termination of Order No. R4-2004-0110 is exempt from the provisions of Chapter 3 (commencing with Section 21100), Division 13, Public Resources Code, in accordance with California Water Code (CWC) section 13389.

The Regional Board has notified the Discharger and interested agencies and persons of its intent to consider termination of Order No. R4-2004-0110, and has provided them with an opportunity to submit comments.

The Regional Board, in a public hearing, heard and considered all comments and testimony pertinent to the Order.

IT IS HEREBY ORDERED that Order No. R4-2004-0110 is terminated, except for enforcement purposes.

The Executive Officer of this Regional Board is authorized, and is hereby directed, to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies that request it.
