Ventura, CA 93002

TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS – FORMER DIXIE DIESEL FACILITY, 6417 VENTURA BOULEVARD, VENTURA, CALIFORNIA (ORDER NO. R4-2002-0030, SERIES NO. 054, CI-8814, FILE NO. 04-164)

Dear Mr. Becker:

In our letter dated February 6, 2007, we informed you that the subject discharge is regulated under Order No. R4-2002-0030, (Series No. 054), which specifies your Waste Discharge Requirements (WDR).

In a letter dated December 31, 2009, you notified the Regional Board that you ceased Fenton's Reagent injection for this site and that you requested termination of the WDR.

The monitoring results were provided to the Regional Board in quarterly monitoring reports. Since you have completed the in-situ remediation and no longer need the WDR, the coverage under Board Order No. R4-2002-0030, (Series No. 054), for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Project Manager, Mr. Jay Huang, at (213) 576-6711 or the Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Tracy J. Egoscue
Executive Officer
