Return Receipt Requested  
Claim No. 7002 2410 0005 0647 9205

Dear Mr. Scanlon:

**COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – SOUTHERN CALIFORNIA WATER COMPANY, GOLDMEDAL PLANT, 13030 YUKON AVENUE, HAWTHORNE, CALIFORNIA (NPDES NO. CAG994005, CI-8839)**

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES).

Based on the attached Fact Sheet and other information provided, we have determined that the proposed groundwater discharge meets the conditions to be regulated under Order No. R4-2003-0108, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-8839. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations. Since the groundwater analytical data provided meets the screening criteria, full enrollment under this general permit is authorized and Section E.2. will not be applicable to your discharge. However, the discharge limitations in Part E.1. of Order No. R4-2003-0108 are applicable to your discharge. The groundwater discharge flows into the Dominguez Channel. Therefore, the discharge limits in Attachment B of Order No. R4-2003-0108 are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8839 and NPDES No. CAG994005", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

**California Environmental Protection Agency**

*Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.*

We are sending a copy of Order No. R4-2003-0108 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at [http://www.waterboards.ca.gov/losangeles/html/permits/general\\_permits.html](http://www.waterboards.ca.gov/losangeles/html/permits/general_permits.html).

If you have any questions, please contact Raul Medina at (213) 620-2160.

Sincerely,

Jonathan Bishop  
Executive Officer
