Dear Mr. Samorano:

In our letter dated September 9, 2009, we informed you that the proposed injection for on-going in situ groundwater remediation is regulated under Order No. R4-2007-0019, Series No. 092, which also serves as your Waste Discharge Requirements (WDR) for the discharges of a carbon source/electron donor and a reducing agent into groundwater to reduce volatile organic compounds and hexavalent chromium, respectively.

This letter is to notify you that the April 2005 WDR Order No. R4-2005-0030 has been superseded by the March 2007 WDR Order No. R4-2007-0019. Therefore, the coverage under WDR Order No. R4-2005-0030, Series No. 029 for the subject facility is hereby terminated.

If you have any questions, please contact Dr. Ann Chang at (213) 620-6070.

Sincerely,
