Penthouse Suite
Santa Monica, CA 90405

Dear Mr. Slavin:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—RAD DOGTOWN STATION CONDOMINIUM CONSTRUCTION PROJECT, 700 MAIN STREET, VENICE, CALIFORNIA (NPDES NO. CAG994004, CI-8966)

In our letter dated September 27, 2005, we informed you that the subject discharge is regulated under Order No. R4-2003-0111, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

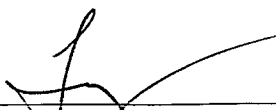

We have reviewed your November 11, 2008, letter requesting termination of your coverage under the General NPDES Permit. The letter indicated that you have completed the construction project and ceased discharging groundwater from the subject site.

On June 24, 2009, Board staff inspected the project site and verified that there is no discharge of groundwater from the site to storm drain. Since there is no discharge of groundwater from the facility, coverage under Board Order No. R4-2003-0111, General NPDES Permit No. CAG994004, for the subject site is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Tracy J. Egoscue
Executive Officer

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
