Glendale, CA 91206

Dear Mr. Regan:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—NORTH ALFRED AVENUE VENTURE, LLC—MULTI-FAMILY RESIDENTIAL BUILDING PROJECT, 817-821 N. ALFRED STREET, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-8978)

In our letter dated October 26, 2005, we informed you that the subject discharge is regulated under Order No. R4-2003-0111, *Waste Discharge Requirements for Discharges of Groundwater From Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003, which also serves as your NPDES permit.

We have received and reviewed the August 18, 2008, letter from your consultant, EP Associates, requesting termination of your coverage under the General Permit. The letter indicated that you completed the dewatering project on August 1, 2008, and that you have ceased discharging groundwater.

On September 9, 2008, Board staff inspected the project site and verified that there is no discharge of groundwater from the site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order No. R4-2003-0111, General NPDES Permit No. CAG994004, for the subject project is hereby terminated except for enforcement purposes.

Please note that if future discharge of any groundwater to surface water become necessary at the site, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
