P.O. Box 99
Ventura, CA 93002

Dear Mr. Passanisi:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—CITY OF SAN BUENAVENTURA, FOSTER PARK RIVER PIPELINE REPAIR PROJECT, FOSTER PARK, VENTURA, CALIFORNIA (NPDES NO. CAG994004, CI-8989)

In our letter dated November 29, 2006, we informed you that the subject discharge is regulated under Order No. R4-2003-0111, *Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

In an email to staff dated August 14, 2006, you requested termination of the subject permit because you have completed your construction project. An inspection conducted by staff from this office on October 25, 2007, found that there is no discharge of groundwater at the site to surface waters.

Since you have ceased the discharge of groundwater to surface waters at the site, an NPDES permit is not necessary and coverage under Board Order No. R4-2003-0111 for the subject site is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters become necessary, you must file a Report of Waste Discharge with this office and obtain appropriate Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters. If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Tracy J. Egoscue
