COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – CAMARILLO WATER RECLAMATION PLANT UPGRADE CONSTRUCTION, 150 HOWARD ROAD, CAMARILLO, CALIFORNIA (NPDES NO. CAG994004, CI-9007)

Dear Ms. McGovern:

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge up to 396,000 gallons per day of treated groundwater from the above-referenced construction project.

Based on the information provided, the proposed discharge of treated groundwater meets the conditions to be regulated under Order No. R4-2003-0111, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Groundwater From Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-9007. The discharge limitations in Part E.1.a. and b. of Order No. R4-2003-0111 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge.

The treated groundwater flows to the Arroyo Conejo, a tributary to Calleguas Creek, above Potrero Road. Your discharge has been determined to satisfy the provisions for creekside dewatering, therefore the discharge limitations in Attachment B.4.a. of Order No. R4-2003-0111 are not applicable to your discharge, except those for boron and nitrogen.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9007 and NPDES No. CAG994004", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. R4-2003-0111 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at: http://www.waterboards.ca.gov/losangeles/html/permits/general_permits.html.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Jonathan S. Bishop
Executive Officer
