CLAIM NO. 7000 0520 0024 712 9945

Dear Mr. DiPrimio:

**COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – VALENCIA WATER COMPANY, WELL S7 REHABILITATION PROJECT, 23850 BRIDGEPORT LANE, VALENCIA, CALIFORNIA (NPDES NO. CAG994005, CI-9015)**

We have completed our review of your application for a permit to discharge wastewater under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge up to 2.2 million gallons per day (MGD) of groundwater for one week period during Well S7 rehabilitation project. It is necessary to discharge at this flowrate to properly develop and test the well.

Based on the information provided, the proposed discharge of groundwater meets the conditions to be regulated under Order No. R4-2003-0108, *Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. CAG994005)*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-9015. Since the groundwater analytical data provided meets the screening criteria, full enrollment under this general permit is authorized and Section E.2. will not be applicable to your discharge. However, the discharge limitations in Section E.1. of Order No. R4-2003-0108 are applicable to your discharge. Discharge from the project drains to the Santa Clara River between Bouquet Canyon Road Bridge and West Pier Highway 99. Therefore, the discharge limitations in Attachment B.3.c. are also applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. R4-2003-0108. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9015 and NPDES No. CAG994005", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.
