Dear Mr. Alvord:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—VALENCIA WATER COMPANY—WELL S7 REHABILITATION PROJECT, 23850 BRIDGEPORT LANE, VALENCIA, CALIFORNIA (NPDES NO. CAG994005, CI-9015)

In our letter dated January 13, 2006, we informed you that the subject discharge is regulated under Order No. R4-2003-0108, *Waste Discharge Requirements for Discharges of Groundwater From Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003, which also serves as your NPDES permit.

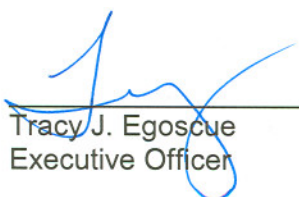

We have received and reviewed your July 31, 2006 letter, requesting termination of your coverage under the General Permit. The letter indicated that you have completed the subject project and no groundwater was ever discharged at the subject project site.

On December 18, 2008, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the project site, coverage under Board Order No. R4-2003-0108, General NPDES Permit No. CAG994005, for the subject project is hereby terminated except for enforcement purposes.

Please note that if future discharge of any groundwater to surface water become necessary at the site, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

Tracy J. Egoscue
