Governor

January 14, 2010

Mr. Gregory Barton  
ExxonMobil Refining & Supply Company  
3700 West 190<sup>TH</sup> Street, TPT2  
Torrance, CA 90504

**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE  
REQUIREMENTS – EXXON STATION NO. 7-3416 (FORMER) 595 NORTH MOORPARK  
ROAD, THOUSAND OAKS (ORDER NO. R4-2005-0030, SERIES NO. 036, CI-9026)**

Dear Mr. Barton:

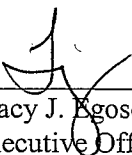

In our letter dated February 6, 2006, we informed you that the subject discharge is regulated under Order No. R4-2005-0030, (Series No. 036), which specifies your Waste Discharge Requirements (WDR).

In a letter dated January 12, 2009, you notified the Regional Board that you ceased discharge of hydrogen peroxide injection for in-situ remediation of total petroleum hydrocarbons and that you requested termination of the WDR.

The monitoring results were provided to the Regional Board in quarterly monitoring reports. Since you have completed the in-situ remediation and no longer need the WDR, the coverage under Board Order No. R4-2005-0030, (Series No. 036), for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

**If you have any questions, please contact the Project Manager, Mr. Daniel Piroton, at (213) 576-6714 or the Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.**

Sincerely,

  
Tracy J. Egoscue  
Executive Officer
