CERTIFIED MAIL
RETURN RECEIPT REQUESTED
CLAIM NO. 7002 2030 0006 2095 2743

Dear Ms. Lubin:

GENERAL WASTE DISCHARGE REQUIREMENTS FOR WASTE DISCHARGES TO LAND BY SMALL DOMESTIC WASTEWATER TREATMENT SYSTEMS – VENTURA COUNTY GENERAL SERVICES AGENCY, PARKS DEPARTMENT, STECKEL COUNTY PARK, UNINCORPORATED VENTURA COUNTY, SANTA PAUL, CA 93060 (FILE NO. 06-051)

We have completed our review of your application for Waste Discharge Requirements for wastewater generated from Tapo Canyon County Park to an onsite septic disposal system, and have determined that the proposed discharge meets the conditions specified in the general waste discharge requirements of the State Water Resources Control Board (State Board) Water Quality Order No. 97-10-DWQ, “General Waste Discharges to Land by Small Domestic Wastewater Treatment Systems”, adopted by this State Board on November 18, 1997. Refer to the attached Fact Sheet.

Enclosed are your Waste Discharge Requirements (WDRs), consisting of Order No. 97-10-DWQ. Order No. 97-10-DWQ includes Attachments A & B. If the septic tank is pumped annually, the monitoring requirements for septic tank measuring outlined in Attachment A are not required. Monitoring and Reporting Program No. CI-9060, and Standard Provisions-Applicable to Waste Discharge Requirements (Attachment B) are applicable. Please note that your discharge must not exceed the water quality objectives set in the Regional Board’s Water Quality Control Plan. Should changes to the septic disposal system be needed, revised engineering drawings showing the change must be filed with the Regional Board a minimum of thirty days prior to the change. The Discharger must receive approval of such change.

Although your discharge is enrolled under the general permit (Order No. 97-10-DWQ), it will be reviewed periodically. Based on the technical information pertaining to your septic disposal system and/or groundwater, the Regional Board Executive Officer may determine that the discharge would be better regulated another general WDR or a specific WDR. Once the decision is made, you will be notified within 30 days of any Board action. If the discharge is regulated under another general WDR, or a specific WDR, the applicability of Order No. 97-10-DWQ is immediately terminated, effective the issuance date of a new WDR.

The “Monitoring and Reporting Program” requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. At such time as you connect to a municipal sewer collection line, submit a written request for termination of this permit to this Regional Board.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

Our mission is to preserve and enhance the quality of California’s water resources for the benefit of present and future generations.

Ms. Teresa Lubin

June 30, 2006

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9060", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

We are sending a copy of Order No. 97-10-DWQ with Attachments A and B only to the applicant. A copy of the Order will be furnished to anyone who requests it.

If you have any additional questions, please contact Rodney Nelson at (213) 620-6119 or Ms. Toni Callaway at (213) 620-2259.

Sincerely,

Jonathon Bishop
Executive Officer
