**TERMINATION OF COVERAGE UNDER STATEWIDE GENERAL WASTE DISCHARGE REQUIREMENTS (STATE WATER RESOURCES CONTROL BOARD WATER QUALITY ORDER NO. 2003-0003-DWQ: SERIES NO. 007) FOR DISCHARGE OF PIPELINE TEST WATER FROM PRESSURE TESTING OF 7000 FEET OF NEW WATER SUPPLY PIPELINE AT TWO LOCATIONS ALONG BRADLEY ROAD IN COYOTE CANYON, SOMIS, CA (FILE NO. 06-121, CI-9117)**

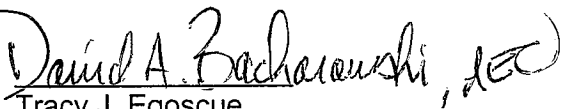

Dear Ms. Demartini:

A Notice of Termination was received on August 18, 2008, which requested that we terminate your enrollment under Statewide General Waste Discharge Requirements (GWDR, Order No. 2003-0003-DWQ). Order No. 2003-0003-DWQ and Discharge Monitoring Program (DMP, CI-9117) provides coverage for discharges to land with a low threat to water quality, and was issued for the discharge to a surface impoundment of potable water used to pressure test a new water supply pipeline at the subject site.

The DMP was implemented on April 28, 2008, when discharge of the pipeline test water commenced and ended. The sump disposal and site clean-up activities were completed by June 30, 2006. The monitoring report was received by the Groundwater Permitting Unit on November 18, 2008. Based on the review, you have complied with the requirements of DMP CI-9117. Therefore, your request for termination of GWDR is granted.

If you have any questions please call Project Manager, Ms. Toni Callaway, at (213) 620-2259 or Unit Chief of Groundwater Permitting, Dr. Rebecca Chou, at (213) 620-6156 regarding this matter.

Sincerely,

  
Tracy J. Egoscue  
Executive Officer
