Mr. Randy Costales Island Environmental Services, Inc. 2490 W. Pomona Blvd. Pomona, CA 91768 Certified Mail Return Receipt Requested Claim No. 7002 0860 0004 5295 5270

Dear Mr. Costales:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – 110/105 FREEWAY INTERCHANGE STORM WATER MANAGEMENT PROJECT, CALIFORNIA (NPDES NO. CAG994004, CI–9177)

We have completed our review of your application for a permit to discharge groundwater to surface waters under a National Pollutant Discharge Elimination System (NPDES). The project is located at 110 - 105 Freeway Interchange, Los Angeles, California. You propose to discharge up to 0.03 million gallons per day (mgd) of wastewater from dewatering of storm water debris and sediments.

Based on the attached Fact Sheet and other information provided, we have determined that the proposed discharge at the above-referenced site meets the conditions to be regulated under Order No. R4-2003-0111, General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-9177. The discharge limitations in Part E.1.a of Order No. R4-2003-0111 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge. The discharge flows into a nearby storm drain thence, to Los Angeles River. Therefore, the discharge limitations in Attachment B.7.d of Order No. R4-2003-0111 are applicable to your discharge. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, <u>ATTN: Information Technology Unit.</u> When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9177 and NPDES No. CAG994004", which will assure that the reports are directed to the

California Environmental Protection Agency

CI-9177

appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. R4-2003-0111 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at http://www.waterboards.ca.gov/rwqcb4/html/permits/general permits.html.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

ORIGINAL SIGNED BY

Jonathan S. Bishop Executive Officer
