TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—GOLDEN STATE WATER COMPANY, BISSELL PLANT, 6612 BISSELL STREET, BELL, CALIFORNIA (CAG994003, CI—9324)

Dear Mr. Scanlon:

In our letter dated September 18, 2007, we informed you that the subject discharge is regulated under Order No. R4-2004-0058, *General NPDES and Waste Discharge Requirements for Discharges of Nonprocess Wastewater to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

We have received and reviewed your June 9, 2009, letter requesting termination of your coverage under the General Permit because you have stopped discharging filter backwash water from the subject facility since September 2008.

On July 22, 2009, our staff inspected the facility and verified that there is no discharge to the storm drain. Since there is no discharge from the site to the storm drain, coverage under Board Order No. R4-2004-0058 for the subject facility is hereby terminated except for enforcement purposes. Please note that if future discharges to surface water become necessary at the site, you must file a Report of Waste Discharge with this office and obtain appropriate waste discharge requirements.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Tracy J. Egoscue
Executive Officer
Chief Deputy E.O.
