**GENERAL WASTE DISCHARGE REQUIREMENTS FOR GROUNDWATER CLEANUP AT
PETROLEUM HYDROCARBON FUEL, VOLATILE ORGANIC COMPOUND AND/OR
HEXAVALENT CHROMIUM IMPACTED SITES
VENTURA FARMS
555 WEST POTRERO ROAD, THOUSAND OAKS
(ORDER NO. R4-2007-0019, SERIES NO. 038; CI NO. 9336)**

Dear Ms. Gallegos:

We have completed our review of your application for coverage under the General Waste Discharge Requirements to inject ozone at the site referenced above in Thousand Oaks, California, for groundwater cleanup and remediation.

Since April 2000, various subsurface investigations have been conducted at the subject site subsequent to the tank removal, which consisted of drilling and sampling numerous soil borings, installing twelve groundwater monitoring wells (MW-1 to MW-12). The analytical data from groundwater monitoring event conducted in February 2007 indicated groundwater beneath the site was still impacted by TPHg (up to 143 µg/L) and MTBE (up to 42.0 µg/L). The Groundwater flow direction underneath the site was to the south at a gradient from approximately 0.115 feet/foot.

To remediate groundwater contaminations, you have proposed in the Work Plan for In Situ Chemical Oxidation dated January 24, 2007, to inject ozone into groundwater formation through 4 locations on-site (please refer to Monitoring & Reporting Program No. CI-9319, Figure 2).

A letter dated February 23, 2007 from Ventura County Division of Environmental Health approved the Corrective Action Plan.

Regional Board staff has determined that the proposed discharge meets the conditions specified in Order No. R4-2007-0019, "Revised General Waste Discharge Requirements for Groundwater Remediation At Petroleum Hydrocarbon Fuel, Volatile Organic Compound and/or Hexavalent Chromium Impacted Sites (General WDRs)," adopted by the Los Angeles Regional Water Quality Control Board on March 1, 2007.

Ms. Maria Gallegos

- 2 -

October 30, 2007

Enclosed are your Waste Discharge Requirements, consisting of General WDRs Board Order No. 2007-0019 and Monitoring and Reporting Program No. CI-9336 and Standard Provisions.

The WDRs issued shall not be rescinded until Ventura County Division of Environmental Health staff determine the WRDs are no longer needed for the site cleanup.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of this enrollment under Regional Board Order No. R4-2007-0019. All monitoring reports shall be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to Compliance File No. CI-9336, which will assure that the reports are directed to the appropriate file and staff. Do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

We are sending a copy of Order No. R4-2007-0019 only to the applicant. A copy of the Order will be furnished to anyone who requests it, or on line at:

http://www.waterboards.ca.gov/losangeles/html/permits/gen_orders/R4-2007-0019/R4-2007-0019.pdf

If you have any questions, please contact Mr. Rod Nelson at (213) 576-6119 or Mr. Gregg Kwey at (213) 576-6702.

Sincerely,

Tracy J. Egoscue
Executive Officer
