CLAIM NO. 7002 2030 0006 2095 3443

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS—EDCO STATIONS, INC.—CARSON MINI TRUCK STOP REMEDIATION PROJECT, 101 WEST VICTORIA STREET, CARSON, CALIFORNIA (NPDES NO. CAG994004, CI-9347)

Dear Mr. Almoradi:

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You propose to discharge up to 72,000 gallons per day (gpd) of treated groundwater from the above-referenced remediation project site.

Based on the attached Fact Sheet and other information provided, we have determined that the groundwater discharge meets the conditions to be regulated under Order No. R4-2003-0111, *Waste Discharge Requirements for Discharges of Groundwater From Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-9347. The discharge limitations in Part E.1.a. and 1.b. of Order No. R4-2003-0111 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge. The discharge drains into the Dominguez Channel, therefore the discharge limitations in Attachment B are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9374 and NPDES No. CAG994004", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
