Dear Ms. Barnet:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—LOS ANGELES MUSEUM OF THE HOLOCAUST, 100 S. THE GROVE DRIVE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-9569)

The subject discharge is regulated under Order No. R4-2008-0032, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 5, 2008.

We have reviewed a letter from Ms. Jodi Shapiro dated December 6, 2013, requesting termination of your coverage under the General Permit. The letter indicated that you have stopped discharging from the above-referenced facility to surface water and that the subject NPDES permit is no longer needed.

On January 30, 2014, Board staff inspected the project site, and observed that connection between groundwater collection device and outfall to storm water system still existed and thus groundwater could still be discharged to surface water. On August 25, 2015, we received photos from your office demonstrating that the pipes connecting your discharge to the storm water outfall have been capped. Since there is no discharge of groundwater from the facility, coverage under Board Order R4-2008-0032, General NPDES Permit No. CAG994004 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Samuel Unger, P.E.
Executive Officer
