

Los Angeles Regional Water Quality Control Board

June 23, 2015

Mr. Patrick Schanen
Environmental Health Manager
Office of Environmental Health and Safety
Los Angeles Unified School District
333 South Beaudry Avenue, 28th Floor
Los Angeles, CA 90017

TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS FOR CENTRAL REGION ELEMENTARY SCHOOL NO. 20, SITE 11, 3600 WEST COUNCIL STREET, LOS ANGELES, CALIFORNIA (FILE NO. 09-176, ORDER NO. R4-2007-0019, SERIES NO. 168, CI-9746, GLOBAL ID WDR100001114)

Dear Mr. Schanen:

On February 24, 2010, the Los Angeles Regional Water Quality Control Board (Regional Board) informed you that the application of an Oxygen Release Compound (ORC) product and/or a Hydrogen Release Compound (HRC) product for the in-situ chemical oxidation (ISCO) to remediate volatile organic compounds (VOCs) and total petroleum hydrocarbon (TPH) impacts to the subsurface in select areas at Central Region Elementary School No. 20 is regulated under Regional Board Order No. R4-2007-0019, which specifies your Waste Discharge Requirements (WDR).

In a letter May 19, 2015, you requested the termination of the WDR coverage under Regional Board Order No. R4-2007-0019 because the ISCO remediation of VOCs was completed. The last injection of ORC and HRC occurred in July 2011 and no additional injection of ORC and/or HRC is planned. The school was opened in 2013. Therefore, the WDR is no longer needed. The coverage for the subject facility, under Regional Board Order No. R4-2007-0019, is hereby terminated with the exception of enforcement under the term of the permit.

If you have any additional questions, please contact the Project Manager, Mr. David Koo at (213) 620-6155 (dkoo@waterboards.ca.gov) or the Groundwater Permitting Unit Chief, Dr. Eric Wu at (213) 576-6683 (ewu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.

Executive Officer
