

Los Angeles Regional Water Quality Control Board

October 1, 2014

Mr. Christopher Cannon
The City of Los Angeles Harbor Department
222 West 6th Street, Suite 900
San Pedro, California 90731

**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS
– LONG BEACH LEADS EXTENSION PARCELS LBX/MY-851 AND LBX/SE-853, 914
FARRAGUT AVENUE, WILMINGTON, CALIFORNIA (FILE NO. 11-141, ORDER NO. R4-
2007-0019, SERIES NO. 173, CI-9756, GLOBAL ID. WDR100001827)**

Dear Mr. Cannon,

On October 19, 2011, this Regional Water Quality Control Board (Regional Board) informed you that the subject discharge is regulated under Regional Board Order No. R4-2007-0019, which specifies your Waste Discharge Requirements (WDR).

In a letter dated September 24, 2014, you notified the Regional Board that you ceased injection of sodium persulfate activated with hydrogen peroxide and Rhodamine WT at the subject site and requested termination of the WDR.

Since the City of Los Angeles Harbor Department has no plan to inject sodium persulfate activated with hydrogen peroxide and Rhodamine WT in the future, the coverage for the subject facility under Regional Board Order No. R4-2007-0019 is hereby terminated, with the exception of enforcement under the terms of the permit.

If you have any questions, please contact the Project Manager, Dr. Ann Chang at (213) 620-6122 (ann.chang@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (eric.wu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.
Executive Officer
