

Los Angeles Regional Water Quality Control Board

January 6, 2014

Mr. Dale Hayton Pacific Hydrotech Corporation 314 E. 3rd Street Perris, CA 92570

Dear Mr. Hayton:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE DISCHARGE REQUIREMENTS—PACIFIC SYSTEM AND WASTE ELIMINATION HYDROTECH CORPORATION, PENMAR WATER QUALITY IMPROVEMENT PROJECT, 1216 E. ROSE AVENUE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-9812)

The subject discharge is regulated under Order No. Order No. R4-2008-0032, General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties, adopted by this Board on June 5, 2008.

We have reviewed your June 17, 2013, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that construction project has been completed, and the permit is no longer needed. On January 2, 2014, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2008-0032, General NPDES Permit No. CAG994004, CI-9812 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger, P

Executive Officer
