

Appendix III – Additional Disposal Options

Additional Disposal Option for Dredged Material from Cerritos Bahia Marina

The intent of this project will be to take confirmation samples of the dredge material prior to trucking to disposal location. The worst case scenario as far as distance and cost is represented as our first option because we have gotten prior approval from the landfill operator to dispose of the material based on the already conducted sediment testing results. Depending on the results of the confirmation sampling we may request disposal approval at an alternate location including:

Disposal Option #2: Azusa Land Reclamation

Disposal Use: Reuse as daily cover

Site Name: Azusa Land Reclamation

Site Description: Azusa is an existing sanitary landfill operated by Azusa Land Reclamation Co. The dredged material will be used as daily cover.

Site Address: 1211 West Gladstone Street
Azusa, CA. 91720
(626) 705-8521

Latitude: 33.117°

Longitude: -117.925

Zoning: Open Space

Owner's Name: Azusa Land Reclamation Co. Inc.

Phone Number: (626) 705-8521

Owner's Address: 766 South Ayon Ave.
Azusa, CA. 91702

Does the site include jurisdictional wetlands? No

Is the site an existing site that regularly receives dredge material? Yes

Year site was last used for dredged material? 2008

Volume of dredged material designated for this disposal site?

11,086 cy as measured in-situ. We expect this material to reduce to approximately 50% of in-situ volume or 5543 cy.

Proposed type of equipment to be used?

Dewatered dredge material will be loaded into dump trucks via front end loader.

Will disposal result in construction of temporary or permanent structures? NO

Will the proposed disposal affect existing public access or public recreational facilities?
NO

Will the proposed disposal involve the transportation of dredged material by trucks? Yes

If yes, please describe the number of truck trips and the route used. Approximately 250 truck trips will be required.
