Ching Yin To  
Water Resources Control Engineer  
Los Angeles Regional Water Quality Control Board  
320 W. 4<sup>th</sup> Street Suite 200  
Los Angeles, CA 90013

Dear Ms To:

The purpose of this letter is to comment on the Tentative Water Discharge Requirements and NPDES Permit for Calleguas Water District's Salinity Management Pipeline. Camrosa has only a couple of edits we would like to bring your attention to:

- On page 70 of the draft, Section F-5, Table F-2, the capacity of the Camrosa Water Reclamation Facility should read 2.25 MGD instead of 4.9 MGD.
- On page 71, section F-6, the capacity of our wastewater plant should read 2.25 instead of 1.5.

If you have any questions, please contact me at (805) 248-0402.

Sincerely,

Michael Phelps  
Water Quality Manager  
Camrosa Water District
