The Santa Clarita Valley Sanitation District (SCVSD or Discharger) owns and operates a publicly-owned treatment works (POTW) comprised of the Valencia Water Reclamation Plant (Valencia WRP or Facility) and its associated wastewater collection system and outfalls.

The Facility discharges wastewater to the Santa Clara River, a water of the United States. Regional Water Board staff prepared a tentative revision of Order No. R4-2009-0074 for the Waste Discharge Requirements (WDRs) and National Pollutant Discharge Elimination System (NPDES) for the Valencia Water Reclamation Plant, to update some findings. The Expiration date, and all other Limitations, Requirements, and Provisions of Order No. R4-2009-0074 are unchanged and shall remain in full force and effect.

At the conclusion of testimony, the Board will deliberate in open or close session, and render a decision.

The Board does not generally require the prior identification of witnesses, the cross examination of witnesses, or other procedures not specified in this notice. Parties or persons with special procedural requests or requests for alternative hearing procedures should contact staff, who will endeavor to accommodate reasonable requests. Objections to any procedure to be used during this hearing must be submitted in writing no later than close of business 15 business days prior to the date of the hearing. (Any objections related to the amount of time allocated for parties' presentations must be submitted within two business days of notice thereof, if that date is less than 15 business days before the hearing.) Absent such objections, any procedure not specified in this hearing notice will be waived pursuant to section 648(d) of title 23 of the California Code of Regulations. Procedural objections will not be entertained at the hearing.

If there should not be a quorum on the scheduled date of this meeting, all cases will be automatically continued to the next scheduled meeting in **February 2014**. A continuance will not extend any time set forth herein.
