

Item # 13
Response to Comments
Santa Clarita Valley Sanitation District (SCVSD)
Valencia Water Reclamation Plant (WRP)
Tentative NPDES Permit Revision

(This Table summarizes the comments received from interested parties with regard to the above-mentioned facility's Tentative Permit [dated September 30, 2013]. Each comment presented in this Table has corresponding Regional Water Board's response and/or action taken.)

Issue	#	Section	Comment	Response	Action Taken
Language change Could vs. would	1	Finding 3	SCVSD requests that the language on page 1 of the Valencia WRP tentative Revised WDR Order, Finding 3 be changed as follows: "...by the first 6,000 dwelling units of Newhall Ranch could be temporarily treated at the Valencia WRP...to convey any flow generated within Newhall Ranch to the Valencia WRP.."	The language has been changed from "would" to "could."	Language changed in tentative WDR Finding 3
Language change reference 401 WDR Order	2	Finding 5	SCVSD requests that the phrase "SCVSD and Newhall Land have agreed that" be removed since there is no agreement between the SCVSD and Newhall Land regarding the demineralization facility. Newhall Land is constructing the facility as required by the 401 WDR permit.	The language has been replaced as follows: "Newhall Land will construct an Interim Demineralization Facility located adjacent to the Valencia WRP, as required by Regional Water Board Order No. R4-2012-0139. "	Language changed in tentative WDR Finding 5
Language change describe permeate	3	Finding 5	SCVSD requests that the term "treated permeate" revised to "permeate" since the permeate is high quality water and is not being further treated.	The language has been changed as follows to more accurately describe the permeate: "SCVSD will accept the permeate (high quality product water) from the Interim Demineralization Facility."	Language changed in tentative WDR Finding 5
Provision 1 Could vs. would	4	Provision 1 of tentative Revised Order, modifying WDR. § II. Finding B	SCVSD requests that language on page 2 of the Valencia WRP tentative Revised WDR Order, Provision 1 be changed as follows: "...by the first 6,000 dwelling units of Newhall Ranch could be temporarily treated at the Valencia WRP...to convey any flow generated within Newhall Ranch to the Valencia WRP.."	Similar to Comment #3, the language has been changed from "would" to "could."	Language changed in tentative WDR Provision 1

Issue	#	Section	Comment	Response	Action Taken
Provision 1 Newhall Ranch	5	Provision 1 of tentative Revised Order, modifying WDR. § II. Finding B	SCVSD requests that the term “the new county sanitation district” be replaced with “Newhall Ranch” since that is the area where Newhall Land will construct the infrastructure.	The language has been changed for clarity.	Language changed in tentative WDR Provision 1
Language change regarding permeate	6	Provision 1 of tentative Revised Order, modifying WDR. § II. Finding B	SCVSD requests that the term “treated permeate” revised to “permeate” since the permeate is high quality water and is not being further treated.	Similar to Comment #3, the language has been changed to simply describe the water as “permeate.”	Language changed in tentative WDR Provision 1
Add language regarding conveyance infrastructure	7	Provision 1, Item ii of tentative Revised Order,	SCVSD requests that language be added to Provision 1, item ii indicating that and all sewers, pumping plants, and force mains required to convey any flow generated from Newhall Ranch to be treated at the Valencia WRP.	The language has been added to a newly inserted Item i, rather than adding it to existing Item ii.	Language changed in tentative WDR Provision 1
Refer to Attachment C	8	Provision 1, last sentence	SCVSD requests that the Attachment be referred to as Attachment C, since that’s what the Process Flow Diagram is referred to in NPDES Order No. R4-2009-0074 for the Valencia WRP.	The language has been changed to refer to Attachment C .	Language changed in tentative WDR Provision 1
Label Attachment C	9	Process Schematic Attachment	SCVSD requests that the Attachment be referred to as “Attachment C,” since that’s what the Process Flow Diagram is referred to in NPDES Order No. R4-2009-0074 for the Valencia WRP.	The title of the Process Schematic has been changed to “ Attachment C .”	Changed title of the Attachment
