TSO No. R4-2011-0126-AXX

**NOTICE OF PROPOSED ISSUANCE OF
AMENDED TIME SCHEDULE ORDER (TSO) FOR
WASTE DISCHARGE REQUIREMENTS
(National Pollutant Discharge Elimination System (NPDES) Permit)**

DISCHARGER	DISCHARGE LOCATION	RECEIVING WATER
Camarillo Sanitary District (Camarillo Water Reclamation Plant)	150 Howard Road Camarillo, California	Conejo Creek (tributary to Calleguas Creek)

Camarillo Sanitary District (hereinafter Camarillo SD) discharges tertiary-treated wastewater from its Camarillo Water Reclamation Plant (Camarillo WRP) into Conejo Creek, tributary to Calleguas Creek, which are waters of the United States. The discharge is regulated under waste discharge requirements contained in Order No. R4-2014-0062-A01, adopted by this Regional Water Quality Control Board (Regional Water Board) on May 8, 2014 and amended on July 9, 2015. Order No. R4-2014-0062-A01 serves as a permit under the National Pollutant Discharge Elimination System (NPDES No. CA0053597). On July 14, 2011, the Regional Water Board issued Time Schedule Order (TSO) No. R4-2011-0126 in response to Camarillo SD's request. On September 12, 2013, the Regional Water Board amended TSO No. R4-2011-0126 by issuing TSO No. R4-2011-0126-A01. On May 8, 2014, the Regional Water Board amended TSO No. R4-2011-0126-A01 by issuing TSO No. R4-2011-0126-A02, which revised interim effluent limits for chloride, sulfate, and total dissolved solids (TDS). On December 17, 2015, the Regional Water Board amended TSO No. R4-2011-0126-A04, by issuing TSO No. R4-2011-0126-A03 to extend the final TSO deadline to December 31, 2017.

On September 7, 2017, Camarillo SD requested an extension of the time schedule in TSO No. R4-2011-0126-A03 for chloride, sulfate, and TDS; and subsequently submitted supporting documentation on October 9, 2017, regarding the changes to their capital improvement project. On December 27, 2017, the Regional Water Board amended TSO No. R4-2011-0126-A03 by issuing TSO No. R4-2011-0126-A04 to extend the final TSO deadline to December 31, 2018.

On October 31, 2018, Camarillo SD submitted a letter to the Regional Water Board requesting a six-month extension of the December 31, 2018, deadline contained in TSO No. R4-2011-0126-A04 because it is continuing to work with Camrosa Water District and Pleasant Valley County Water District (Pleasant Valley CWD) to obtain regulatory approval from both the State Water Resources Control Board (State Water Board) Division of Drinking Water (DDW) and the Regional Water Board for the *Camarillo SD Interconnection Project* and to complete construction of the infrastructure that will allow for the delivery and distribution of recycled water to the new use sites.

Based on staff review and application of lawful standards and regulations, the Executive Officer, pursuant to delegated authority from the Regional Water Board, tentatively proposes to amend TSO No. R4-2011-0126-A04, by extending the time schedule for TDS, sulfate, and chloride to June 30, 2019. No changes to the NPDES permit are being proposed at this time.
