<u>DISCHARGER</u>	<u>DISCHARGE LOCATION</u>	<u>RECEIVING WATER</u>
Honeywell International Inc. Gardena Groundwater Remediation System Facility	1733 West Artesia Boulevard Gardena, CA 90248	Dominguez Channel

The Honeywell International Inc. (Discharger), Gardena Groundwater Remediation System Facility (Facility) is located at 1733 West Artesia Boulevard, Gardena, California. The Facility is regulated by Order R4-2019-0133, which was adopted on November 14, 2019 and is scheduled to expire on December 31, 2024. In a letter dated November 10, 2020, the Discharger requested termination of the NPDES permit because no further discharge will occur.

A groundwater treatment system (GWTS) was previously installed at the Facility to treat groundwater contaminated with volatile organic compounds (VOCs) that resulted from leaking underground storage tanks that were present prior to 1990 when the site was a manufacturing facility. The site has been redeveloped for commercial and residential uses. The Facility is permitted to discharge up to 0.02 million gallons per day (MGD) of treated groundwater to the Dominguez Channel. The Facility last discharged on October 11, 2013. In 2013, the Discharger installed an Enhanced Reductive Dechlorination (ERD) system in 2013 to replace the GWTS by injecting a biobarrier into the aquifer to prevent the migration of contaminated groundwater. In 2016 the Discharger removed the GTWS equipment from the Facility and replaced it with a soil vapor extraction (SVE) system to remove VOCs from contaminated soil. The purpose of Order R4-2019-0133 was to allow for the Facility to reinstall and resume operation of the GWTS in the event that treatment and containment of contaminated groundwater with the ERD and SVE systems was not successful. The Discharger has determined that the ERD and SVE systems are successful in containing and treating the contaminated groundwater beneath the Facility. Therefore, the GWTS will not be reinstalled and no further discharge will occur.

On the basis of preliminary staff review and application of lawful standards and regulations, the Los Angeles Water Board proposes to terminate Order R4-2019-0133.

1. The applicant/permittee

Any other persons requesting party status must submit a written or electronic request to staff not later than 20 business days before the hearing. All parties will be notified if other persons are so designated.

PUBLIC COMMENTS AND SUBMITTAL OF EVIDENCE

Persons wishing to comment upon the tentative termination of Order R4-2019-0133 or submit evidence for the Board to consider, are invited to submit them in writing. To be evaluated and responded to by staff, included in the Board's agenda folder, and fully considered by the Board, written comments and evidence must be submitted to the Board by mail to the address above or by email to losangeles@waterboards.ca.gov with a copy to thomas.siebels@waterboards.ca.gov, and received at the Board's office by 5:00 p.m. on February 1, 2021. Please reference the comments as "Comments on tentative termination of Order R4-2019-0133, Honeywell International Inc., Gardena Groundwater Remediation System Facility, CA0062162".

Pursuant to section 648.4, title 23 of the California Code of Regulations, written comments or evidence submitted after the comment deadline will not be allowed or accepted into the Administrative Record without a showing of good cause for the delay, and in no event if any party or the Board would be unduly prejudiced by the late submittal including if staff or the Board would not have an adequate opportunity to review, consider, and respond to the comments or evidence.

Additionally, if the Board receives only supportive comments, the permit may be placed on the Board's consent calendar and approved without oral testimony.

HEARING PROCEDURE

The meeting, in which the hearing will occur, will start at 9:00 a.m. Interested persons are invited to attend. Staff will present the matter under consideration, after which oral statements from parties or interested persons will be heard. For accuracy of the record, all important testimony should be in writing. The Board will include in the administrative record written transcriptions of oral testimony that is actually presented at the hearing. To present oral testimony, parties and interested persons must register for the Zoom meeting via the link on the Board's agenda webpage here:
