Dear Steven Awada:

This letter serves as a follow-up to the Los Angeles Regional Water Quality Control Board's (Los Angeles Water Board) letter dated May 5, 2025, notifying you of the Board's intent to consider termination of Waste Discharge Requirements (WDRs) Order No. 80-058, which prescribes waste discharge requirements (WDRs) for the operation of an unlined surface impoundment/waste pile owned by Halaco Engineering Company (Discharger) at 6200 Perkins Road, Oxnard, California.

As indicated in the prior correspondence, the proposed termination of WDRs Order No. 80-058 will be considered at a public hearing scheduled for 9:00 a.m. on June 26, 2025, at the Los Angeles Water Board's office located at 320 West 4th Street, Los Angeles, California 90013 (Carmel Room).

During the public comment period for the proposed termination, no comments were received. However, the tentative WDRs have been revised to incorporate minor editorial corrections. The revised tentative WDRs can be obtained from the Los Angeles Water Board website at:
