Dear Mr. Cwikia:

For the year 2015 the discharge into the sewer was:

Duchess #1 11,651 Barrels of water after having passed through the clarifiers.

Clark #2 14,652 Barrels of water after having passed through the clarifiers.

Find enclosed our permit for the Clark Lease.

We have just moved our office and have boxes and boxes that we are organizing. As I come across it, I will forward a copy. However, there is one on file with the district.

All the best,
Steve Riva
ASIOCO

All the Best,
Steve

Mr. Riva,

The Regional Board has reviewed the response from ASIOCO, Inc. (attached) to Order Number R4-2015-0274. In the response you noted that produced water at both leases is sent to the City of Los Angeles Sanitation District via the sewer. Please provide the specific annual volumes discharged to the sewer by ASIOCO, Inc in 2015 by April 15, 2016 if possible, along with permit information. Let me know if you have any questions.

Thank you for your assistance in this matter,

Josh Cwikla
