**RE: Four Teams Oil Production & Exploration Company, Inc.
Submittal of Statement LARWQB Investigative Order No. R4-2015-0277
The Disposal of Well Drilling Fluids, Well Completion Fluids, and
Production Fluids to Land**

This statement is being submitted to the Los Angeles Regional Water Quality Control Board (LARWQB) pursuant to Investigative Order No. R4-2015-0277 dated 12/20/2015. Four Teams Oil Production & Exploration Company, Inc. (FOUR TEAMS), or any subsidiary owned and/or operated within the oil field or fields operated by FOUR TEAMS, has not discharged well drilling fluids, well completion fluids, and/or oil production fluids to land since FOUR TEAMS has owned/operated their leases in DOGGR District One. FOUR TEAMS has not created nor operated historic, active, temporary or long-term sumps (i.e., an open pit, pond, excavation, natural depression) since they have owned/operated their leases. Furthermore, it is not a common practice for FOUR TEAMS to discharge fluids to an open pit, pond, excavation and/or natural depression.

Additionally, the following information and methodology for obtaining this information, is being submitted as part of this statement:

Description of Disposal Methods and Destinations:

FOUR TEAMS and/or its affiliates have not drilled any wells since they have owned and/or operated within the oil field(s) operated by FOUR TEAMS.

Produced water generated as a part of lease oil production is discharged to a POTW (Publically Owned Treatment Works). The volume of produced water for FOUR TEAMS operations has averaged approximately 21,595 barrels per year since FOUR TEAMS has owned the assets.

Crude oil produced by FOUR TEAMS operations is sold with a custody transfer at the lease site. The oil is trucked offsite for delivery to a refinery by others (not by FOUR TEAMS). The volume of crude oil produced by FOUR TEAMS has averaged approximately 7,129 barrels per year since FOUR TEAMS has owned the assets.

P.O. BOX 877, LAKEWOOD, CA 90714 • PHONE (310) 549-6984 • FAX (310) 569-0587

Volumes of Fluids: The volume of water and oil produced was based upon FOUR TEAMS records as reported to the California Department of Conservation, Division of Oil, Gas and Geothermal Resources.

Lastly, I, Michael Sliwoski certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of the those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Yours truly,

Michael Sliwoski
President
