Re: Water Code Directive, Section 13267, dated December 18, 2015.

Dear Mr. Unger:

In accordance with the referenced Water Code Directive (Directive), NafTex Operating Company (NOC) is required to submit technical information for any NOC oil and gas operations in the counties of Los Angeles and Ventura.

Please note that NOC does not have any oil and gas operations within either Los Angeles County or Ventura County. NOC operates oil and gas production facilities within Kern County. NOC provided such previously requested information by the Central Valley Regional Water Quality Control Board in March, 2014.

Should you have any questions regarding this matter, or need further information, please contact me directly at (661) 363-8801, ext. 215.

Sincerely,

A handwritten signature in blue ink, appearing to read "RKH".
