RE: Two Week Extension Request  
CA Water Code Directive Pursuant to Section 13267 - Order To Submit  
Information – The Disposal of Well Drilling Fluids, Well Completion Fluids,  
and Production Fluids for Freeport-McMoRan Oil & Gas LLC Oil and Gas  
Operations in Los Angeles County and Ventura County, California

Dear Mr. Cwikla:

I am writing to request a two week extension to complete our response to the Investigative Order referenced above with regards to disposal of well drilling fluids and production fluids to sumps. The letter is dated December 18<sup>th</sup>, with a due date of January 18<sup>th</sup>. We received the letter during the holiday period and combining the holidays with vacation schedules, we were unable to commence work on the Technical Report until the New Year. We therefore request an additional two weeks, to February 1, 2016 to deliver upon the information request.

Thank you in advance for your time and consideration to this extension request and response. I can be reached at (323) 298-2266 should you have any questions.

Sincerely,

Candace Salway  
Manager, EH&S
