CALIFORNIA REGIONAL WATER
QUALITY CONTROL BOARD
LOS ANGELES REGION

Dear Mr. Taing,

Following up to our phone conversation earlier today I wanted reiterate that we did not intentionally ignore the order referenced above and state that it was misplaced after receiving it. A quick read thru of the order looked suspect as we have no production in the Counties listed and the order was set aside for further review and response. Unfortunately that response was not made until we received a "wake up call" receiving a Notice of Violation today for which I apologize.

Additionally as per our letter to the Board sent Certified Mail today as well as a copy sent via email to Dr. Yue Rong I state that Griffin Resources, LLC does not own or operate any oil producing wells in Los Angeles or Ventura counties and consequently does not discharge fluids to land or sumps in said counties.

I Stephen J. Griffin certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
