Los Angeles Regional Water Quality Control Board
320 W. Fourth Suite 200
Los Angeles, CA 90013

Attn: Mr. Joshua Cwikla

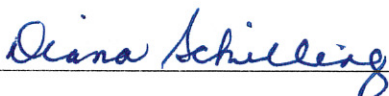

Dear Mr. Cwikla,

In response to your letter dated December 18, 2015, the following is a description of our handling of water that is produced from the oil well API 059-05009 located at 1049 Golden Avenue, Placentia Ca 92870 and owned by Jones Imperial #2, LLC

The oil and water are first separated into large tanks. The resulting water is sent through carbon filters then piped to the City of Yorba Linda's sewage system. We do not have a sump for this oil well and water from it is never exposed to bare ground.

I, Diana Schilling, certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on the inquiry of those individuals immediately responsible for obtaining the information, I believe the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Please contact me if you have any questions.

Diana Schilling, manager
