LOS ANGELES REGION

Attn: Joshua Cwikla

Reference: California water code directive pursuant to section 13267 – order to submit information – the disposal of well drilling fluids, well completion fluids, and production fluids to land for Graner Oil Company Oil and Gas Operations in Los Angeles and Ventura County, California.

Dear Joshua,

Graner Oil Company does not have any sumps on their properties. Produced water is processed through either Oil Operators Inc., owned and operated by oil producers in the Long Beach oil fields or water not disposed of through Oil Operators is cycled to the sewers for which permits are active.

In response to your questions on pages 2 and 3 (1 through 9) of your letter to Graner Oil Company, since Graner Oil does not have any sumps on their properties, question #1 is answered by "NONE" and questions 2 through 9 are "NOT APPLICABLE."

I, Robert Graner certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of the those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Sincerely,

Robert Graner  
President
