Dear Joshua,

At C.E. AllenCompany, Inc. dba AllenCo there was one sump located at the RC Lease Signal Hill. This sump from time to time included oil and water.

The sump was used to collect tank bottom water. However, prior to January 18, 2015 the sump was removed and back filled.

The History of the sump is not known. It is only assumed water and oil were placed into the sump.

The sump was made from a concrete bottom and siding. Its size was 6' x 6'.

It was used at C.E. AllenCompany, Inc., dba AllenCo, RC Lease.

The sump was used by Cockriel Oil Co. prior to C.E. AllenCompany taking ownership in approximately 2004.

I, Tim Parker, certify under penalty of the law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, that I believe that is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of imprisonment.

Sincerely,

Dear Joshua,

At AllenCo Energy there has never been a sump to our knowledge. We purchased the property in 2009 and it is located at 814 W. 23rd St., Los Angeles, CA. 90007.

We purchased the property from St. James Oil Company and to our knowledge there was never a sump on the property.
