320 W. Fourth Street, Suite 200
Los Angeles, CA 90013
Attn: Joshua Cwikla

RE: California Water Code Section 13267
Order No. R4-2015-0435

Joshua,

This letter is in response to the notice received by Mr. Curtis Elliot on December 18, 2015 from the Los Angeles Regional Water Quality Control Board. Remora Operating CA, LLC ("Remora") does not discharge any hydrocarbon liquids, produced water, or other associated fluids into any open pit, pond, excavation, natural depression, or other earthen receptacle. Waste water is disposed via sewer system and received by the Los Angeles County Sanitation District or the Orange County Sanitation District. Water volumes are submitted monthly to DOGGR and quarterly to DOGGR SB1281 and can be supplied for any requested time interval. Total volumes across all wells and sanitation districts averages around 550 to 600 BBLs/day of water. If you have any questions regarding our water disposal process please do not hesitate to contact me.

I, Corwin Ames, certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of the those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Thanks,

A handwritten signature in blue ink, appearing to read "Corwin Ames", is written over a light blue horizontal line.
