

P&M OIL COMPANY, INC.

18 January 2016

Los Angeles Regional Water Quality Control Board
320 W. Fourth Street, Suite 200
Los Angeles, CA 90013

ATTN: Joshua Cwikla

Dear Joshua,

At P&M Oil Company there was one sump located at the Taylor well located near 28th St, Signal Hill. This sump from time to time included oil and water.

The sump was used to collect tank bottom water. However, prior to January 18, 2015 the sump was removed and back filled.

The History of the sump is not known. It is only assumed water and oil were placed into the sump.

The sump was made from a concrete bottom and 2" x 8" siding. Its size was 4' x 4'.

It was used at P&M Oil Company, Taylor well.

The sump was used by El Cam Oil prior to C.E. Allen Company taking ownership in approximately 1994.

I, Tim Parker, certify under penalty of the law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, that I believe that is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of imprisonment.

Sincerely,

Tim Parker
Vice President
