LOS ANGELES REGION

LBTH has not had any discharges as outlined in the December 18, 2015 letter. All of LBTH produced water is and has been injected into approved DOGGR disposal wells in the oil fields. No sumps are used to handle produced water from any oil field activity.

There are no known waters in any formations in these fields which are less than the designated EPA TDS for possible potable waters. All waters in these fields are greater than 10,000 TDS.

I, R.W. Bowman, certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that here are significant penalties for submitting false information, including the possibility of fine and imprisonment.

R. W. Bowman
