

3/30/16

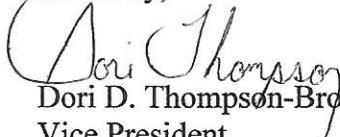

Los Angeles Regional Water Quality Control Board
320 West 4th Street, Suite 200
Los Angeles, CA 90013

In response to Investigative Order No. R4-2015-0457, Thompson Oil Company issued a response on 1/28/16 as follows:

Thompson Oil Company, Inc. does not have a sump or sumps at any lease location whether it be Ventura or Los Angeles County. The Moorpark location in question has a 1/2 " steel below ground tank that holds approximately 90 BBLs of waste water. A 5 1/8" steel top encloses it, surrounded by a cement block containment. Certainly not a Sump defined as: "A receptacle formed primarily of earthen materials, etc..." So not technical report is required & will not be provided.

In addition, we have been working with a Permitting Coordinator & the Compliance Division for a correction to the APCD permit.

Sincerely,

Dori D. Thompson-Brown
Vice President
