**RE: CALIFORNIA WATER CODE DIRECTIVE PURSUANT TO SECTION 13267 – ORDER TO SUBMIT INFORMATION – THE DISPOSAL OF WELL DRILLING FLUIDS, WELL COMPLETION FLUIDS, AND PRODUCTION FLUIDS TO LAND FOR AMPLE RESOURCES, INC. OIL AND GAS OPERATIONS IN LOS ANGELES AND VENTURA COUNTY, CALIFORNIA**

Dear Mr. Unger:

Ample Resources, Inc. (hereafter referred to as Ample) is in receipt of your letter dated December 18<sup>th</sup>, 2015 regarding Investigative Order No.R4-2015-0471 to provide a technical or monitoring report on the disposal of well drilling fluids, well completion fluids, and production fluids to land for Ample Resources, Incorporated oil and gas operations in Los Angeles and Ventura County, California – California Water Code Section 13267.

**Ample Resources, Inc. submits certification by this letter that during the period that Ample or its subsidiary has owned or operated the oilfield or field in Ventura County that Ample has NOT discharged any well drilling fluid, well completion fluid, and well production fluid to sump. Ample does not and has never operated in Los Angeles County.**

Ample Resources, Inc. water disposal method regarding oil and gas operations is disposal to a fully permitted and fully inspected and compliant (by County, State, and Federal BLM) water disposal well on Ample's lease.

Water Disposal Well Name: Snow 2  
Lease Name: Snow  
API: 11104080  
Lat: 34.46174308 Long: -118.77451985  
Volume: 154,474 Barrels in 2015

This information above is part of public records on the website of California Department of Conservation, Division of Oil, Gas and Geothermal Resources (Division), as follows:

<http://www.conservation.ca.gov/dog>

In compliance with Public Resource Code (PRC) 3227 of Senate Bill 1281, Ample submits to the Division monthly and quarterly statements with information regarding disposition of produced water from each well that Ample operates.

Further, I have personally accompanied Mr. Joshua Cwikla of Los Angeles Regional Water Quality Control Board on October 27<sup>th</sup>, 2015 during his inspection of the oilfields that Ample operates and I further affirm that Ample has not discharged to historical sump or any sump of drilling, completion or production fluid during Ample's ownership and operatorship.

*I, Faith Y. Pai certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.*

Should you have any questions or concerns regarding this matter, please do not hesitate to contact me at (310) 553-7355.

Sincerely,

Ample Resources, Inc.

**RE: CALIFORNIA WATER CODE DIRECTIVE PURSUANT TO SECTION 13267 – ORDER TO SUBMIT INFORMATION – THE DISPOSAL OF WELL DRILLING FLUIDS, WELL COMPLETION FLUIDS, AND PRODUCTION FLUIDS TO LAND FOR AMPLE RESOURCES, INC. OIL AND GAS OPERATIONS IN LOS ANGELES AND VENTURA COUNTY, CALIFORNIA**

Dear Mr. Unger:

This letter is a supplement to the letter dated January 13<sup>th</sup>, 2016 from Ample Resources, Inc. (hereafter referred as Ample). We are providing additional information regarding the same subject above.

Again, as in the letter dated January 13<sup>th</sup>, 2016, Ample does not discharge any fluid/solid to sump and disposes fluid to Ample's fully permitted disposal well named Snow 2.

In addition, for any liquid that Ample cannot dispose through our disposal well, we use the service provider, Anterra Energy Services, Inc. (hereafter referred as Anterra) for their services in disposal of oil field waste liquid and/or solids. Anterra operates the only commercial injection well in Ventura County and also has a treatment facility for processing and disposal of oil field fluid/solids. ([www.anterraservices.com](http://www.anterraservices.com))

It took some time, but by retrieving from storage past invoices and manifests for the past eight years, Ample is able to provide you the following best estimate to the best of Ample's knowledge.

Disposal through Anterra Energy Services, Inc.:

1. Drilling and Completion Liquid:

Year: 2008

Volume: 441 barrels of liquid

Work: Deepening of 2 wells back to back so that the drilling/completion fluids can be re-used from one well to the other. Ample drilled only in 2008.

2. Disposal of Solids (Tank Bottoms)

Year: 2008

Volume: 72.6 tons of solids and 630 barrels of liquid

Work: Clean up of tanks left on Ample's leases by previous operators.

3. Operational Fluids

Year	Fluids (Bbl)
2009	265
2010	460
2011	0
2012	265
2013	1,099
2014	370
2015	220

Work: Waste Water Tank cleanups and operational fluid disposal. The operational annual disposal to Anterra averages less than 1% of the annual disposal to Ample's disposal well.

*I, Faith Y. Pai certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.*

Should you have any questions or concerns regarding this matter, please do not hesitate to contact me at (310) 553-7355.

Sincerely,

Ample Resources, Inc.
