Dear Mr. Cwikla,

We are in receipt of the order dated December 18, 2015 to comply with California Water Code Section 13267 and have retained Mark Drollinger from Citadel Environmental Services to provide the necessary back up on this matter.

As there are no sumps or fluid discharge ponds currently in use, information for the past use of these discharge systems is scarce.

Given the potential difficulty in obtaining the necessary information in a timely manner, we respectfully request an extension for compiling and submitting the required technical report to your attention by January 29, 2016.

Please let me know if you have any questions regarding this request. We appreciate your understanding and approval. Thank you.

A handwritten signature in black ink, appearing to read "Larry Krasner". The signature is fluid and cursive, with a long horizontal stroke at the end.

Larry Krasner
President- CIO
