**Re: California Water Code Directive Pursuant to Section 13267 – Order to Submit Information-The Disposal of Well Drilling Fluids, Well Completion Fluids, and Production Fluids to Land for Tesoro Petroleum Corporation Oil and Gas Operations in Los Angeles and Ventura County, California
Investigative Order No. R4-2016-0022**

Dear Mr. Cwikla:

We are in receipt of a December 24, 2015 Order to Submit Information pursuant to California Water Code Section 13267 issued by the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) regarding the disposal of well drilling fluids, well completion fluids and production fluids to land. The Regional Board's cover letter indicates that it has information from the California Division of Oil, Gas, and Geothermal Resources (DOGGR) identifying Tesoro Petroleum Corporation as an operator of oil and gas wells within either DOGGR District One or Two, or as an operator within multiple DOGGR Districts.

Tesoro does not have any active oil and gas wells in Los Angeles or Ventura County or anywhere else in the state of California. This has been confirmed in a January 5, 2016 email to me by Daniel J. Dudak, Southern District Deputy for DOGGR.

I, Deborah Perfetti Felt, certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and that, based on my inquiry of these individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are
